What alrouger proof of these facts can be produced than the following letter received unsolicited from Rev. ROSES, MALOOMS Co., Mich., July 9, 1869.

Misses, J. N. Harris & Co.,

Gentlemen:—The confidence i have in Perry Davis,
Pain Killer as a remedy for Colds, Coughe, BornsSprains
and Rheumalism, for the cure of which I have successfully used it, induces me to cheerfully recommend its
virtues to others.

A few months ago I had recourse to it to destroy slon; although I had never heard of its being used i felon; although I had never heard of its being used for
that purpose, but having suffered intensely from a former one, and having no other remedy at hand, I applied
the Pain Killer freely for about lifteen minutes at evening, and repeated the application very briefly the next
morning, which entirely destroyed the telon, and increased my confidence in the utility of the remedy
Yours truly,
A. W. CLETIS,
Minister of the Wesleyan Methodist Church,

THE PAIN KILLER has been tested in every variety of climate, and nost every mation known to Americans. It is the constant companion and inestimable friend of the ras-sionary and traveller, on sea and land, and no on should travel on our LAKES on RIVERS WITHOUT I

Be sure you call for and get the genuine Pain Kill as many worthless nostrums are attempted to be set on the great reputation of this valuable medicine

COPARTNERSHIP NOTICE

Will be sufficient to cook in it for a family a whole year. It cooks in about one half the time ordinarily required, and the heat is regulated with such precision that scarcely any skill or care is necessary to cook with absolute perfection. Meats are roasted thorouguly with the most desirable uniformity, and come from it to the table juicy and tender. Bread is baked with or without a hard crust, as desired, and will remain fresh and soft much longer than bread baked in other ovens. Another very important advantage is, that the stove when cooking ordinarily gives out so little heat to the surrounding air that it will not kindle friction matches laid upon it, so that in summer it scarcely heats the room at all; but in winter, by opening one of the doors, it will heat the room with about one-fourth the wood required by any stove in use.
